

Key CSR Projects for FY 2022-23

Our CSR projects for the year 2022 - 23 are focused on areas of education, gender equality, economic empowerment, preventive healthcare and sanitation, environmental sustainability, rural development etc. as mentioned under Schedule VII.

Each project planned the year is explained in further detail herein:

EDUCATION AND GENDER EQUALITY

1. Nanhi Kali

Project Nanhi Kali supports the education of underprivileged girls enrolled in government schools across India. The project is designed to support economically and socially disadvantaged girls to complete their schooling and transform their lives.

This project is implemented in collaboration with the local government authorities and implementation partner.

Locations: Pan India

PREVENTIVE HEALTHCARE AND SANITATION

2. Sanitation & Hygiene Project

The project aims at curbing open defecation by constructing individual household latrines in selected villages across the country where open defecation is a major issue of concern. Furthermore, through Behavior Change Communication sessions, the project focuses to educate villagers on good sanitation practices. Women masons in the village will also be trained on construction, to improve their skills and help them earn a livelihood.

This project will be carried out with the help of an implementation partner.

Location: Tamil Nadu

ENVIRONMENTAL SUSTAINABILITY

3. Watershed Development Project

The project focuses on turning drought-prone areas in the country with very less access to safe water, into communities with easy access to sustainable means of water resources and thereby enhancing the livelihoods of people living in these areas. The aim is to increase ground water levels by repairing/constructing various types of watershed structures as technically feasible. This project also aims at increasing the water storage capacity which will help facilitate access to water and irrigation facilities for beneficiaries.

This project will be carried out with the help of an implementation partner.

Location: Maharashtra

4. Climate Resilient Agriculture

The project focuses on encouraging farmers to adapt to "Climate Resilient Agriculture" and build their capacity to help enhance their income. Through this project, the farmers are

educated about the harmful effects of their over reliance on chemicals & pesticides for agriculture. They are trained on traditional, but efficient and low - cost methods of farming which can be practiced in the long run to ensure sustainable agricultural growth.

This project will be carried out with the help of an implementation partner.

Location: Maharashtra

RURAL DEVELOPMENT

5. Waterwheels Project

The project aims to ensure the access to water facilities among the poor and marginalized communities in drought prone areas with limited access to water. This project reduces the burden of women and other family members in fetching water for household use. They can use the waterwheels to carry water to their respective households in a seamless manner.

This project will be carried out with the help of an implementation partner.

Location: Rajasthan

VARIED FOCUS AREAS:

1. CSR Calendar Initiatives

Mahindra Home Finance encourages employees to participate in various CSR Calendar initiatives such as Tree Plantation, Swachh Bharat, Orphanage/Old Age Home visits and providing virtual volunteering support to various NGOs & their beneficiaries to drive positive change in the society.

2. Need Based Donations

Need assessed donations will be given to NGOs across India with focus area as Education & Livelihood, Healthcare, Environment or any other category as mentioned under Schedule VII. Any such need-based donation would also be sanctioned with the approval of the
